DETAILED ACTION

Specification

The amendment filed January 23, 2006 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: a helical thread, a helical thread twisted, the helical thread being blunt. A review of the original disclosure doesn't recite that the thread is helical. The drawings don't show the thread being helical either. Also it isn't clear how this application is entitled to a filing date of June 13, 1998. The Michelson's U.S. Patent No. 5,015,247 appears to be the patent that applicant is using to justify an earlier filing date. However, this reference doesn't provided any support for a helical thread, the helical thread being twisted, or the helical thread being blunt. The examiner would like for the applicant to show where these limitations are in the prior art reference.

Applicant is required to cancel the new matter in the reply to this Office Action.

Claim Rejections - 35 USC § 112

Claims 1 and 10-31 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. It isn't clear as to what the helical thread, the

helical thread being blunt or the helical thread being twisted are in reference to. These structural limitations are new matter.

Claims 1, 10-18 and 28 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 1, 10-18 and 28, it isn't clear as to what the helical thread, the helical thread being blunt or twisted are in reference to.
